REPORT OF COUNCIL

To the Members, at the Annual General Meeting, Wednesday, February 24th, 1892.

I. SESSION 1890–91.

PUPILS AND FEES.

The entire number of Pupils during this Session was 1540, being an increase of 17 on that of the preceding Session. Of these 968 were Students in the College, and 572 Pupils in the School. Of the Students, 366 belonged to the Faculty of Medicine, 100 being new Students: in the Faculties of Arts and Laws and of Science there were 602 Students, 321 being new Students. The largest number of Boys in the School in any one Term was 498.

As compared with the preceding Session these figures show an increase of 13 Students in the Faculty of Medicine, and an increase of 3 in the new Students. In the Faculties of Arts and Laws and of Science there was an increase of 19 Students, and a decrease of 25 in the new Students.

The Fees received (exclusive of those for Clinical Instruction) amounted to £26,756 2*s.* 0*d.*, being £104 9*s.* 6*d.* less than in the Session 1889–90.

The details for the two Sessions compared were as follows :—

	1890–91.			1889–90.		
	£	*s.*	*d.*	£	*s.*	*d.*
Faculty of Medicine	5,503	1	0	5,589	13	6
Faculties of Arts and Laws and of Science.....	9,551	17	0	9,510	18	0
School	11,701	4	0	11,760	0	0
	£26,756	2	0	£26,860	11	6

In addition to the above-stated amounts, the sum of £1,873 4*s.* 0*d.* was received for Clinical Instruction in the Hospital, making a total of £7,376 5*s.* 0*d.* paid by Students of the Faculty of Medicine in the Session.

The share of fees paid to Professors, Teachers, and Masters amounted to £18,210 13*s.* 10*d.*

SCHOOL.

The returns which have been laid before the Council show that the discipline of the School remains in a satisfactory state.

The Juliana de Rothschild Prize of £20 for the candidate from the School who should obtain the highest place in the Honours Division at the June Examination for Matriculation in the University of London, was given originally by Mrs. Isaac Cohen in memory of her daughter, the late Baroness Mayer de Rothschild. Since Mrs. Cohen's death her daughter, Miss Lucy Cohen, has offered to continue giving the Prize from year to year. It was awarded last year to *C. M. Crossman*, who gained the thirty-second place in the Honours Division.

In 1891 21 pupils passed the Matriculation Examination of the University of London.

The following Table shows the number of boys in the School in each of the three Terms of the last five Sessions:—

	1st Term.	2nd Term.	3rd Term.	Average for the year.
1886–87.....	507	511	519	512
1887–88.....	505	500	514	506
1888–89.....	513	514	498	508
1889–90.....	490	483	490	488
1890–91.....	474	488	498	487

From the Tables submitted it appears that 15 boys were entered in the Black Book last Session, the total number of entries being 23.

Four Scholarships, defraying half the cost of admission to the School for three years, will in July be offered for competition among boys between the ages of twelve and fourteen, whether already in the School or not.

II. GENERAL FINANCES.

The excess of expenditure over receipts for the past Session was £1,785 10*s.* 5*d.* This excess resulted for the most part from the expenditure of £1,600 in alterations of and additions to buildings.

There was at the end of the Financial year a debt of £3,967 12*s.* 4*d.* on the Building Fund account.

III. THE CURRENT SESSION.

The entries of Students to February 1st, 1892, have been as follows:—in the Faculty of Medicine, 307, of whom 75 are new Students; in the Faculties of Arts and Laws and of Science, 443, of whom 241 are new Students: in the School, in Michaelmas Term, 454, of whom 50 were new pupils; in the present Term, 444, 40 being new pupils.

There are 32 Boys in the Branch School at Hampstead.

The College Fees received to February 1st are £3,792 12*s.* in the Faculty of Medicine, and £6,947 6*s.* 6*d.* in the Faculties of Arts and Laws and of Science.

DEATHS OF MEMBERS OF THE COLLEGE.

Sir George Airy.
Dr. L. M. Aspland.
Mr. Boyce.
Mr. R. Buncombe.
Duke of Devonshire.
Sir R. N. Fowler.
Prof. Alfred Goodwin.
Professor Berkeley Hill.
Rev. N. Jennings.
Mr. J. L. Lee.
Mr. H. F. Letchworth.
Prof. H. N. Moseley.
Mr. Theodore Waterhouse.
Dr. F. J. Wood.

The Council report with great regret the death of Sir Robert Fowler, late Treasurer of the College.

The following Resolution was passed on May 27th, 1891, and communicated to Sir Thomas Fowler, son of the deceased:—

"That the Council of University College desire to express their sense of the loss which the College has sustained by the death of Sir Robert N. Fowler, the Treasurer, and their own regret at the loss of a valued colleague. A distinguished Student of the College, Sir Robert Fowler was always ready to expend time and exert influence on its behalf."

The Council have also special reason to regret the death of Mr. Berkeley Hill, a Professor of Clinical Surgery and Senior Surgeon to the Hospital.

The following Resolution has been communicated to Professor Hill's relatives :—

"That the Council of University College have heard with great regret of the death of Professor Berkeley Hill, the Senior Surgeon of the Hospital, and desire to express, through the President, their great sympathy with Mrs. Berkeley Hill and her family.

"During Mr. Berkeley Hill's tenure of the Office of Dean of the Medical Faculty, and as a Member of the Council, his experience and sound judgment enabled him to be of great service to the College, and in losing him the Council feel that they have lost one of their ablest and most trusted Officers."

GENERAL APPOINTMENTS.

Mr. Israel Gollancz, B.A., and Mr. F. E. Weiss, B.Sc., have been appointed Quain Students in English and Biology respectively.

Mr. J. H. Parsons has been appointed Sharpey Scholar *vice* Mr. L. E. Hill, resigned.

THE "TEACHING UNIVERSITY."

The negotiations with the University of London mentioned in the last Report, on the subject of a plan for its reconstitution, with a view to its performing the functions of a Teaching University for London in addition to its present functions, as had been provisionally recommended in the principal Report of the Royal Commission, came to no result, owing to the decisive rejection, by the Convocation of the University, of the plan finally adopted by the Senate.

The petition the two University Colleges presented in 1887 thereupon in due course came before a Committee of the Privy Council, consisting of the Lord President as Chairman, the Earl of Selborne, Chairman of the Royal Commission, Lord Monk Bretton, Lord Basing, and Lord Sandford. The Case for the petitioners was argued by Mr. Rigby, Q.C., and Mr. H. H. Cunynghame. About twenty different Institutions were represented by Counsel, and Cases on behalf of about ten different interests or combinations of interests were presented and argued. After a hearing of several days their Lordships announced their Report to be in favour of the prayer of the Petitioners, some amendments having first been made in the draft Charter, of which the

most important are :—(1) the substitution of the ten separate Medical Schools of London for the Royal College of Physicians of London and Royal College of Surgeons of England as institutions representative of medical education outside the two Colleges, and their admission, at their own request, as Colleges of Medicine in the University; (2) a refusal of the power to grant honorary degrees in Medicine, which is regretted by the Council; and (3) a requirement that the formation of a Faculty of Law, instead of being optional, shall be taken in hand at once.

The Council congratulate the Members of the College upon the success which has thus far attended them in a long and difficult undertaking. Although opposition on various grounds, and from various quarters, is threatened to the Charter at its final stage, in Parliament, the Council believe it will be found that the settlement effected is free from serious objection, and deserves the support of all friends of the College, and of all impartial persons.

The Council have much satisfaction in reporting that the Lord Mayor has accepted the honorary office of High Steward of the University, with a seat on the Governing Body; and that a provision to that effect has been embodied in the Charter accordingly.

A resolution has recently been adopted by a unanimous vote of the Joint Grand Gresham Committee, the administering trustees of Gresham College, expressing their readiness to co-operate in establishing the University, if it can be called "The Gresham University." The Council welcome this co-operation, as a token of the willingness of the Corporation of London and of the Worshipful Company of Mercers, who, by their representatives, compose the Committee, to support the University, and consider that the name proposed is both suitable and dignified. They have accordingly applied to the Privy Council, jointly with King's College, that this name may be embodied in the Charter.

ENLARGEMENT OF THE COLLEGE.

It was stated in the last Report that in view of the pressing necessities of the College it had been decided to appeal to the Public for an Extension Fund.

A Committee was formed for the purpose, and £4,548 4*s*. has now been received or promised. A list of Subscribers, whose names have been received, is appended.

A Committee was also formed to consider and report on the best way of practically meeting the requirements of the Professors of Physics, of Mechanical Engineering, and of Electrical Engineering.

The Committee were of opinion that the requirements of the Engineering and Electrical Departments would best be met by an Extension of the South Wing of the College, and that accommodation for the Department of Physics should be provided in the present Engineering Laboratory and by the construction of an additional building on the South Quadrangle. The cost of the whole of the work was estimated at about £17,000.

The Report of the Committee was considered at a Special Meeting

of Council, when the recommendations of the Committee were adopted.

Professor Roger Smith, F.R.I.B.A., has been requested to make drawings of the new buildings contemplated, and tenders for the work will be invited very shortly.

These proposed additions to the College are no more than are absolutely required to provide adequate accommodation for the departments of Physics and Mechanical and Electrical Engineering. The need for improved Physical Laboratories has so often been dwelt on in recent Reports that it is unnecessary to do more than refer to it here. For scientific and practical instruction in the various branches of Engineering, in combination with a thorough instruction in the mathematical and physical sciences upon which these arts depend, there is a large and increasing demand, which the College is at present unable to meet, not only by reason of the deficiencies in its provision for the practical teaching of Physics, but because the departments of Mechanical and Electrical Engineering are altogether inadequate to present requirements. The other scientific and the Mathematical classes suffer in consequence. The Council have therefore come to the conclusion that it is absolutely necessary, in the interests of the College, that the proposed additions should be made.

The Council have come to this conclusion unwillingly, and after a very careful consideration of the subject, for the cost of the new buildings, and their fittings, will probably be not less than £20,000; and this expenditure, so far as it is not covered by subscriptions, must be met, wholly or in large part, by a loan, the payment of interest on which, with the gradual repayment of capital, will for many years be a serious charge on the income of the College, even if, as the Council hope, the result of the expenditure will be to largely increase the number of the Students. The effect on the income of the College would be the same if some part of the expenditure were met by the sale of some of the invested funds applicable to general purposes; the amount of which, so applicable, is but small.

The Council desire, therefore, to appeal, very earnestly, to the Members of the College for subscriptions towards this expenditure; which is, in the opinion of the Council, absolutely necessary for the prosperity of the College, but which it can ill afford, unless assisted by the liberality of its friends.

THE BRANCH SCHOOL.

The Head Master having in a recent Report recommended the establishment at Hampstead of a Preparatory School, the Council appointed a Committee to consider the matter.

The Committee, after long investigation, were of opinion that, if a suitable house could be obtained, the Council would do well to make the experiment of starting a Branch School for boys between 7 and 13 years of age in the Hampstead district; and the Council, having adopted this view, were fortunate enough to obtain the lease of Holly Hill House which, both in situation and construction, is excellently suited for their purpose. Accordingly in September last the new School was opened, with Mr. Simmons, M.A., formerly an assistant master at University College School, as Head Master.

The Council have at present every reason to be satisfied with the result of their experiment, as there are already 32 boys in the School, while several others are expected at the Half-term.

The Council hope that the establishment of the Branch or Preparatory School will not only satisfy a growing demand in Hampstead, but will do much to keep up the long standing connection of that neighbourhood with University College School.

EVENING CLASSES.

As the promotion or establishment of Evening Classes seemed especially desirable to the Committee on whose recommendation the Government instituted Grants to the University Colleges of Great Britain, the Council felt it their duty to establish such classes here, though past experience had not been altogether favourable to the experiment.

In the past year the following evening classes have been held: —

(i.) A class for practical work in Physics.
(ii.) A class for practical work in Chemistry.

These two classes have been fairly well attended, principally by Students of the University Extension Society.

(iii.) Tutorial classes in English, Classics, and Mathematics.

At first only Teachers in Elementary Schools were admitted to these courses of instruction, but they have now been thrown open to all *bonâ fide* Teachers. The Council regret, however, that the attendance remains very small.

(iv.) An Engineering class.

Large audiences have listened to a course of free evening Lectures on French Literature by Professor Lallemand, and on German Literature by Prof. Althaus; and a course of free lectures by Professor Beare on the Steam Engine was also very successful.

In addition to the Classes and Lectures already mentioned six public discourses were delivered in the College by distinguished men who kindly gave their services. The Council are greatly indebted to these gentlemen and report with satisfaction that the lectures were so

well attended that another series of discourses has been arranged for the present term.

The subjects and lecturers in 1891 were as follows:—

"The Difficulties of Socialism." Right Hon. L. Courtney, M.P.
"Samuel Richardson." Augustine Birrell, Esq., M.P.
"St. Paul's Cathedral." Professor Roger Smith.
"The Art of Legislation." T. Raleigh, Esq., M.A.
"Ice, Water, and Steam." Prof. W. Ramsay, Ph.D., F.R.S.
"Sir Henry Vane." Professor Beesly, M A.
"The Universities of Egypt—Heliopolis, Alexandria, and Cairo." Professor Stuart Poole, LL.D.

ARCHITECTURAL CLASSES.

By the liberality of the Carpenters' Company special provision for education in Architecture and Building Construction has been made. The Company have promised £200 a year for this purpose, and a scheme has been agreed upon by the Council of the College and the Court of the Company, providing for additional classes, both day and evening, and for the appointment of a Demonstrator and an Assistant to the Professor. A joint Committee of the two bodies will watch the operation of the scheme.

PEEL MEMORIAL FUND.

The income of the Fund in 1891 was expended in the purchase of books, &c., presented to the Salt Schools, Shipley, Yorkshire, the Bowness Working Men's Club, Windermere, and the St. Pancras Free Library, London.

LIBRARY.

A Supplement to the Library Catalogue has been set up in type as far as the letter H. It contains the Barlow Dante, Grant Literary, Quain Law, Fine Art, and Chemical Library Catalogues, as well as other additions acquired previous to 1887.

A list of additions during 1890 has also been printed, and a list for the five years 1887–91 is in preparation.

HOSPITAL.

The Hospital Committee would again strongly urge the friends and supporters of the Charity to contribute to the fund for the re-building of the Hospital upon a more modern plan as soon as possible.

The contributions received, and promised, for this purpose amount to about £13,000, and the Committee are most anxious to bring up the total of the "Re-building Fund" to £30,000, in order that building operations may be commenced.

The Hospital has lost a liberal supporter and earnest worker by the death of Sir Robert Nicholas Fowler, Bart., M.P., who for a long term of years was a Member of the Hospital Committee.

In connection with the Medical and Surgical Staff the Committee deeply regret to record the death of Mr. Berkeley Hill, F.R.C.S., Senior Surgeon, who, since 1863, rendered devoted services to the Patients under his charge. The Committee also much regret to place on record the death of Mr. T. Wharton Jones, F.R.C.S., F.R.S., one of the Consulting Surgeons.

Dr. Sidney Martin, F.R.C.P., was appointed Assistant Physician, vice Dr. Angel Money, retired on account of ill-health.

Nine beds and two cots are now endowed and named, and the Committee venture to call special attention to this excellent method of perpetuating the memory of relatives and friends and of adding to the permanent income of the Charity. The income of £2,000 is considered sufficient for the support of a bed or cot; but the Committee will gratefully receive the endowment by instalments until the full amount has been reached.

A Festival Dinner in aid of the Funds was held at the Hotel Métropole on Tuesday, 28th April, under the presidency of the Rt. Hon. Lord Reay, G.C.S.I., when £1,850 were realized.

The debt at the close of 1891 exceeded £14,000, and the Committee therefore earnestly appeal for additional Subscriptions and Donations.

Return of Services of the Members of Council from January 1st to December 31st, 1891, inclusive. Meetings of Council 17, of Committee of Management 21, of Senate 5.
